Dear Mr. Schwilk:

The State of California, Department of Transportation, has received and reviewed your electronic mail dated June 17, 2008.

Please be advised that the Department has suspended the Adopt-a-Highway (AAH) Program in order to perform a comprehensive review of the efficacy of the program, including an evaluation of the program guidelines.

Participants with existing AAH permits that would otherwise expire will be offered extensions while this program is under review. Pending applications for AAH permits will be held in abeyance until the program review is completed and will be assessed at that time. Finally, no new applications for AAH permits will be accepted until the program review is complete.

As the Department noted in its June 9, 2008, letter to your organization, the AAH site you requested on Interstate 5 had been promised to Jobing.Com prior to your submission of a proper application for a new AAH permit. Therefore, there is no application from your organization for a new permit on file with the Department.

Sincerely,

PEDRO ORSO-DELGADO
District Director
